

Tooth extraction clinic available for low-income adults

The Third City Community Clinic will have a free extraction clinic for adult dental patients on Saturday, Oct. 19, 2019 but patients need to act now to participate. Adults who would like to participate need to contact the Third City Community Clinic now because the clinic needs to gather information and arrange for X-rays to be taken before the actual extraction clinic takes place. This clinic will be for low-income adults who have no dental insurance and no government assistance such as Medicaid. This free extraction clinic will help adults who have one or more teeth that can't be saved and need to be extracted. Adults interested in participating in the free dental extraction clinic should call Third City Community Clinic at 398-5312 as soon as possible so they can submit the necessary information and arrange for X-rays.
